

ERE Evaluation and Data Entry System

EMERGENCY ROOM

ENHANCEMENT

Improving Access to Behavioral Health Care

Goals for Today

- ❖ ERE background
- ❖ ERE evaluation
- ❖ Interviewing skills refresher
- ❖ Data entry system

Why ERE?

- 43.7 million adults aged 18 or older have a Mental Health diagnosis
- The top 3 Reasons for not seeking help:

3

1

Cost

2

Handle problems on their own

3

Don't know where to get help

three

Source: **Results from the 2012 National Survey on Drug Use and Health**, Substance Abuse and Mental Health Services Administration, December, 2013

Why ERE?

- 12.6 million visits to ER involved participants with MH/SA disorder
- 1% of Americans account for 20% of health care

Source: 2011 Nationwide Emergency Department Sample (NEDS), Healthcare Cost and Utilization Project (HCUP), Agency for Healthcare Research and Quality (2013).

Evaluation Objectives

ERE Evaluation Goal

- ❖ Assess the degree to which the project improves outcomes

ERE Evaluation

❖ Why are we evaluating?

- To determine baseline status
- To monitor any change in patient status
- To prepare report for MO Legislature

Outcome Evaluation

❖ What are we evaluating?

- ER utilization/hospitalizations (medical records)
- Enrollments in treatment programs (CIMOR data)
- Diagnostic information
- Housing
- Employment
- Involvement with law enforcement

Outcome Evaluation

❖ When are we evaluating?

- Baseline (Form B)
 - Collect asap after intake
 - Enter into database within 30 days
 - Collected by program/CMHC staff
- Follow-up (Form C)
 - Collected 3 months after intake date
 - Can start collecting 2 weeks prior to 3 month point
 - Finish collecting by 4 weeks after 3 month point
 - Offering a \$10 gift card for participation
 - Collected by CMHC staff

Process Evaluation

❖ Form A:

- Number of enrollees
- Demographics of program participants
- Presenting Concerns

❖ Participant satisfaction with services

❖ Successes and challenges of implementation

❖ Collaboration between CMHCs and hospitals

Collaboration Survey

❖ Community Collaborative Survey

❖ Survey based on work of Thomson, Perry, & Miller.

(Thomson, A.M., Perry, J.L., & Miller, T.K. (December, 2007).
Conceptualizing and measuring collaboration. *Journal of Public
Administration Research and Theory*.

Collaboration Survey

- ❖ Trauma informed practice item
 - ❖ Assesses agency practices and policies

Importance of ERE Data Collection

- ❖ Is a significant component of ERE Program
- ❖ Ensures we achieve valid and reliable data

Validity and Reliability

The two most important indicators for determining how well a project is working:

Reliable: Consistency in producing the same results every time we ask the questions.

Valid: the questions measures what it is supposed to measure.

For instance:

You weigh on your home scale
3 times:

1st time=155,
2nd time=148,
3rd time=151.

Your scale is not **reliable**.

It is also not **valid**, as you
actually weigh 152 pounds!

Collecting Valid and Reliable Data

- ❖ Ask the standardized questions
- ❖ Ask and record in a standardized manner

Assignment

**Create a Geometric
Figure using 4
straight lines**

Create Figure Using 4 Lines

Create Figure Using 4 Lines

Figures Using 4 Lines

Why do we need an interviewer skills refresher?

❖ Can be summed in one word:

STANDARDIZATION

Three Goals of Standardization

- ❖ Same question experience
- ❖ Recorded the same
- ❖ Differences are real

Before Meeting with the Participants

- ❖ Prepare yourself
- ❖ Understand purpose of the questions
- ❖ Practice, Practice, Practice!

First Contact

- ❖ Introduce yourself
- ❖ Assume participant is willing to answer questions

First Contact

- ❖ Approach the questions as part of the routine

- ❖ Respect the participant's right to say "No"

Interviewer Bias

- ❖ Ask the questions with total objectivity.
- ❖ Avoid giving clues to your own expectations, values or experiences.

Avoid Creating Interviewer Bias

- ❖ Do not discuss your own experiences

- ❖ Do not read questions using your own words

Avoid Creating Interviewer Bias

- ❖ Do not offer your own opinion during the interview

- ❖ Do not display approval or disapproval through your tone of voice, facial expression, or side comments

Body Language & Non-verbal Cues

Non-verbal cues can be conveyed through:

- ❖ Facial expressions
- ❖ Posture
- ❖ Hand and foot movements

When asking the questions:

- ❖ Read questions as they are worded
- ❖ Read question in the order in which they are presented with no additions, deletions or substitutions
- ❖ Ask every question
- ❖ Record answers accurately

Being Culturally Competent

- ❖ Be respectful of any cultural/ethnic differences
 - ❖ Race/Ethnicity
 - ❖ Gender/Sexual Preference
 - ❖ Age
 - ❖ Literacy level
 - ❖ Physical/mental abilities
 - ❖ Social class
 - ❖ Rural/urban

Keeping Participant On Track

- ❖ *“Let me make note of that—we can talk about it after we get through these questions.”*
- ❖ *“Could I read it again for you?”*
- ❖ *“I see, but have you(repeat the question)”*

Key Phrases for the Participant

Who Asks Why?

- ❖ *“We would like to know if our new program is helping people.”*
- ❖ *“We ask the questions of everyone and we don’t single anyone out.”*
- ❖ *“We have a set of standard question that we ask everyone to make sure we provide the best care possible.”*

Data Entry System

- ❖ Web based
- ❖ Secure, HIT Certification is Process
- ❖ Site specific access

Register

- You must register at the ER Enhancement site (<https://www.erenhancement.org/>) before you can enter or access data. Click on “Register”:

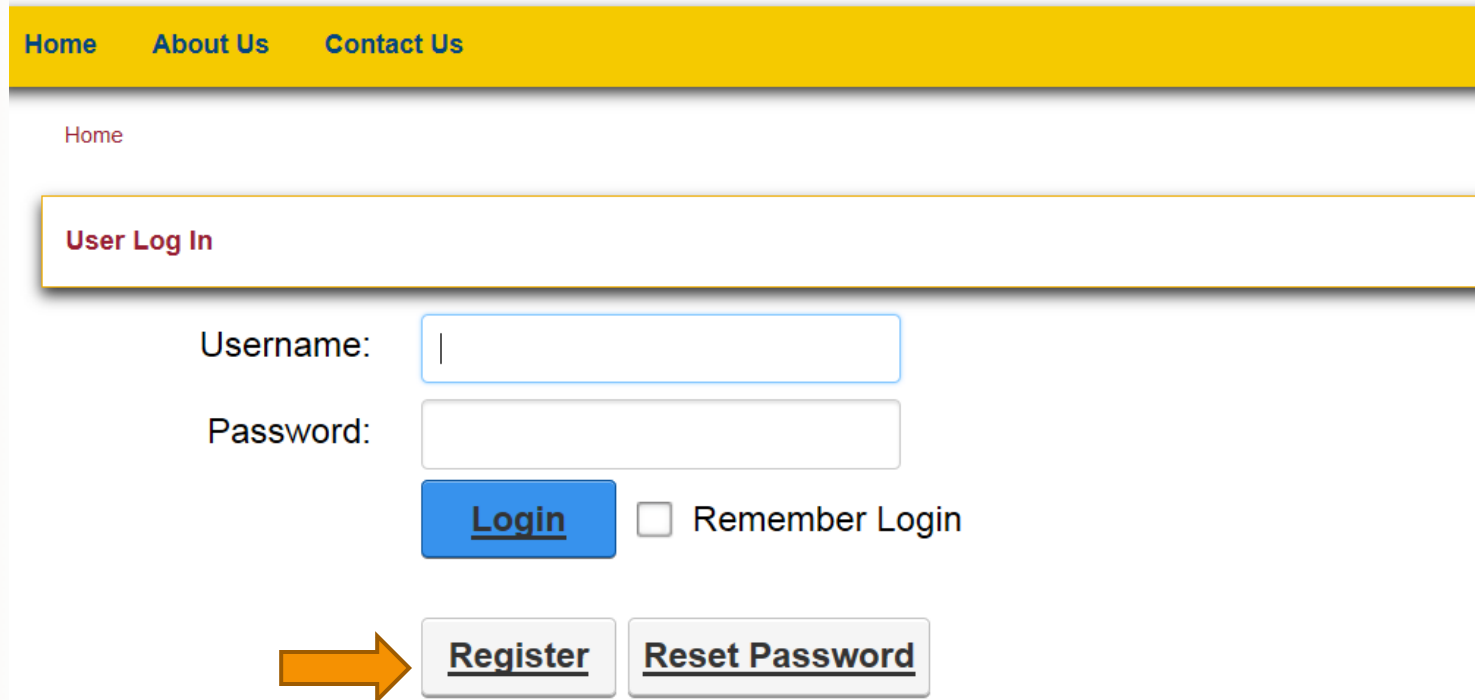

[Register](#) | [Login](#)

The Program Manager from each site must notify us of all staff that have authorization to access their site.

Create User Profile

- To register, create a Username and Password, and click on the Register Tab:

The form is displayed on a light gray background. At the top is a yellow navigation bar with the links 'Home', 'About Us', and 'Contact Us'. Below this bar, the word 'Home' is written in a small, light red font. The main form area is a white box with a thin orange border. Inside this box, the text 'User Log In' is written in a bold, dark red font. Below this text are two input fields: 'Username:' followed by a white box with a blue border, and 'Password:' followed by a white box with a gray border. To the right of the password field is a blue 'Login' button with the word 'Login' in white, underlined text. Next to the button is a checkbox labeled 'Remember Login'. Below the login section, there are two buttons: 'Register' and 'Reset Password', both with underlined text. An orange arrow points from the left towards the 'Register' button.

Create User Profile

An e-mail with your details has been sent to the website administrator for verification. Once your registration has been approved an e-mail will be sent to your e-mail address: rita.adkins@mimh.edu. In the meantime you can continue to browse this site by closing the popup.

***Note:** Membership to this website is Private. Once your account information has been submitted, the Website Administrator will be notified and your application will be subjected to a screening procedure. If your application is authorized, you will receive notification of your access to the website environment. All fields marked with a red asterisk are required. - (**Note:** - *Registration may take several seconds. Once you click the Register button please wait until the system responds.*)

Logging on the Site

- After you have received final permissions, log on to the system at <https://erenhancement.org>
- Enter your user name and password.
- The program will open to the Home Page

The screenshot shows the login interface of the Erenhancement.org website. At the top is a yellow navigation bar with links for Home, About Us, and Contact Us. Below this is a breadcrumb trail showing 'Home'. The main content area is titled 'User Log In'. It contains two input fields: 'Username:' and 'Password:'. Below the password field is a blue 'Login' button and a checkbox labeled 'Remember Login'. At the bottom are two buttons: 'Register' and 'Reset Password'.
